

Mosaic art with chalk!

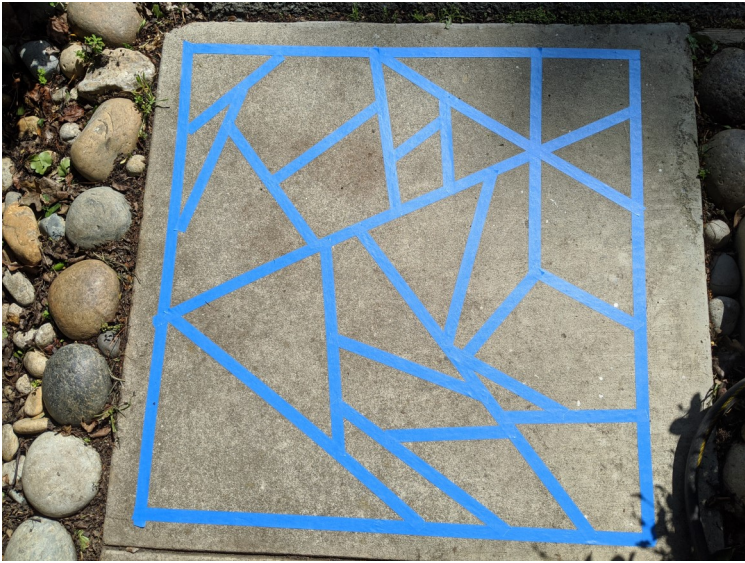

What you need:

- Painters tape
- Chalk

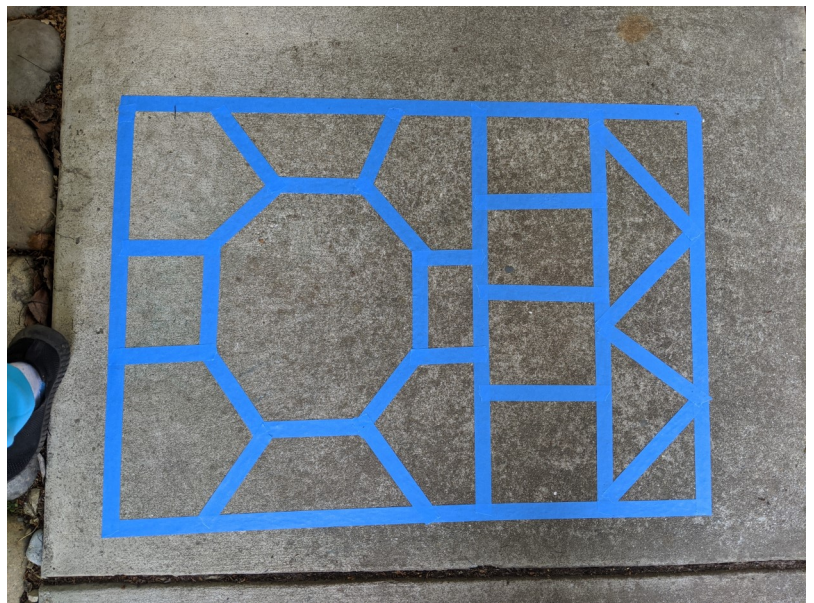

How to set it up:

- Make a big square with tape on the ground, or your fence
- Start laying tape to make different shapes
- Have the child, or yourself, color in all the shapes with different colors of chalk
- When they're finished, have them take the tape off!

You can make it as complex or as simple as you'd like, or you can use two different width tapes for a more elaborate design!

Examples of different designs
