

# Water Beads!

What you need:

- A large container
- Water
- Water beads (Can be found on Amazon, Target, Walmart)

How to:

- Put at least two heaping tablespoons in the container (might be different according to which brand you purchase)
- Fill with lots of water
- Wait anywhere from 4-24 hours, but longer is best
- Put them in a separate container, a balloon, or a plastic bag and let them play!
- Pro tip: you can even freeze them!

**\*\*Do not leave your child unattended with the water beads!  
They are NOT edible and they can make a mess\*\***
